

Product Information

Monomeric soft PVC film (frosted, 80 μ) with solvent-based acrylic adhesive (permanent), laminated on a single-sided PE-coated silicone paper (100 g/m²).

This decorative glass and window film turns bare glass into a much more eye-catching focal point, mimicking the look of sandblasted or speckled etched glass.

Perfect for indoor applications.

Shelf Life

1 year when stored in the original packaging between 20°C and 25°C at 50% relative humidity.

Recommendations for Laminating

Please ensure the print is perfectly dry before laminating.

We suggest to let the material dry for at least 48 hours before after printing.

Technical Data

Carrier	Monomeric soft PVC, highly stabilized, calendered
Thickness	80 μ (+/- 5%)
Adhesive	Solvent-based acrylic, permanent
Adhesion	7,5 N/cm
Liner	Single-sided PE coated silicone paper (100 g/m ²)
Application temperature	+10 up to +40°C
Temperature durability	-30 up to +80°C
Outdoor durability	Indoor use only

Standard Dimensions

1220mm (wide) x 50m (long)

Safety Data Sheet

When used under normal conditions, this product does not generate or release any dangerous substances or hazardous chemicals. This is a non-hazardous product in accordance with the current GefStoffV and EU criteria. Therefore it is not necessary to prepare a Material Safety Data Sheet for this product. The Safety Data Sheet serves only to comply with the regulation to supply information in accordance with REACH Regulation (EC). No. 1907/2006 and is available on request. This product is not hazardous with regards to transportation legislation. Neither does it contain substances that are hazardous to water within the meaning of the federal water act. After use, dispose of the waste product in accordance with local/national authorities.
